

Safety  
Course

# NSTC 030, AERIAL PLATFORMS

This course provides classroom training as required by OSHA 29 CFR 1910.67(C)(2)(ii). This course provides the classroom training to allow employees to have on-site hands-on field training and testing to obtain site approval for use of aerial lifts on a NASA site. Discussions include the awareness of hazards and how to gain from lessons learned. This course will primarily be presented via the NASA Videoteleconferencing system and the instructor-led version of this class will only be available if combined with another course by the same instructor, if there are enough students to merit multiple presentations, or to meet special, urgent needs. Check with the NSTC management staff for determination.

**Target Audience:**

- Supervisors over aerial lift operations.
- Aerial lift operators.
